REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Prior art fails to show or suggest a multiple output illumination system comprising a first reflector having a first and second focal points, a second reflector having a third and fourth focal points, the third focal point being proximate to the first focal point, the fourth focal point being distal from the second focal point, a source of electromagnetic radiation proximate the first and third focal points, a first light pipe having an input end proximate the second focal point and the second light pipe having an input end proximate the fourth focal point.

Prior art fails to show or suggest a multiple output illumination system or a method of using such a device comprising a first reflector having a first focal point, a second reflector having a second focal point, the second focal point being proximate to the first focal point, a source of electromagnetic radiation proximate the first and second focal points which produce first rays of radiation which reflected by the first reflector toward the first intermediate reflector and which produce second rays of radiation which reflected by the second reflector toward the second intermediate reflector, a third reflector having a third focal point receiving the first rays of radiation from the first intermediate reflector and converging them to a third focal point, a fourth reflector having a fourth focal point receiving the second rays of radiation from the second intermediate reflector and converging them to a fourth focal point, a first light pipe having an input end proximate the third focal point and the second light pipe having an input end proximate the fourth focal point.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawing submitted are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
